

NICKO BALMES

UI/UX Designer ||
Frontend Developer

ABOUT ME

I'm a 4th year Bachelor of Science in Computer Science student with a strong passion for Frontend Development and UI/UX Design. I specialize in creating clean, responsive, and user-friendly interfaces that not only look good but also offer seamless functionality across devices. My goal is to build websites that provide meaningful digital experiences by combining thoughtful design with practical development. As I continue to grow in this field, I aim to refine my skills and contribute to projects that prioritize usability and visual clarity.
